Death of Hattie Burton.

The death of Miss Hattie Burton occurred at her home in Hudson, Ill., Monday, March 26th of typhoid fever. She is the oldest daughter of Mr. and Mrs. Charlie Burton. She was born at Iron Mound, Estill county, Ky. May 23, 1889, and was therefore sixteen years old. She leaves father, mother, two brothers and two sisters. Funeral services at Hudson Methodist church by Rev. Cummings.

Deceased is a daughter of Mrs. Annie Burton, formerly a Miss Holman, daughter of Mr. James Holman, of Bowen, and a niece of Mrs. H. G. Burgher, of this city.

Sleep on, Dear Hattie, take your rest; God called thee home, he thought it best.

Friend.

Case Appealed.

The case instituted in Circuit Court having as its purpose the overthrow of the prevailing local option in Powell county, and which was sustained by Judge Benton at the recent term of court, has been carried by the whiskey people to the Court of Appeals where they hope to get the decision reversed.

New Poultry Industry.

J. B. Eaton, our wide-awake liveryman, farmer and merchant, has installed a new incubator, fenced off a commodious poultry yard and will devote some time to raising finely bred fowls for market. This is a paying industry and one that should command a great deal more time and attention from all of our farmers. Poultry grows as well on our \$10 per acre land as on land that costs \$100 per acre, and it costs no more to raise them on cheap land than on land that costs ten times as much. Then it seems that we have a favorite place to raise poultry at big profits.

The Same in Powell.

Reports from every section of the county warrant us in saying that our public roads were never known to be in such a bad condition. In some places they are absolutely impassable. It is useless to say that Estill county could and should afford good roads; and while our county officials are ever on the lookout for the best interest of the county, the present condition of the roads is clearly a neglect of official duty from some source or other. If the next grand jury could be instructed and urged to look into this matter, it would be easy to find out where the fault lies.—Estill Herald.

Fruit All Right.

From present indications we are going to have a bumper fruit crop this year. Peaches, apples, plums and etc. are yet uninjured, and if not killed later we certainly will have plenty of fruit this year. Peach buds are just ready to burst into bloom, which will be very large. People are glad to see the prospects so good, for it has been some time since we have had an all-around fruit crop.

The New Mill.

Swann-Day Lumber Co., we understand, are contemplating replacing their large saw mill burned in this city last week with a steel frame structure instead of wood, as the steel, while more substantial, will also lower the insurance rate which is now so very high. At any rate the mill will be replaced as soon as the loss is adjusted by the fire insurance people so the debris can be cleared away and work begin.

The Retired Farmer.

A great many comments are made on the "retired farmer" who moves to town, but we think it is a sensible thing for the farmer to do. After a man has borne the heat and burden of the day he is entitled to a quiet evening hour, and it is not wisdom or economy for either the farmer or his wife to keep going as long as there is an ounce of available strength left in them. Let them get away from the grind and toil and begin housekeeping over again while they are still capable of enjoying the change. Why should a man or woman work to the last minute and then drop like an old horse in the harness? There are plenty of hands to bear the burdens, and it is good for them that they should.—Ex.

Census Taken.

April is the month for taking the school census, and as this is a very important work, the following advice taken from an exchange should be worth much to both parents and census taker:

The residence should be as if the 1st of April. If a man is living in a district on the 1st of April and afterwards moves away, his children should be taken. If a man moves into the district after April 1st his children should not be listed. The reason for this is obvious, and one trustee may take his list the first week in April the man who moves might thus be listed or may not be listed at all.

Every child between the ages of six and twenty should be listed. This does not mean that all who are between those ages on the day the census is taken should be listed, but that all who will be between six and twenty on the 1st day of the school year, which is July 1st, consequently, if a child is less than six when the list is taken, but who will be six before July 1st, the name should be listed; conversely, if a pupil is not yet twenty, but who will be before July 1st, his name should be left off.

A question sometimes arises as to the residence of a child. The law assumes that the residence of the child's parents or natural guardian is the residence of the child, but this is not always true, as it may in good faith, have its home elsewhere. In general, the same principles which could determine the man's right to vote will determine the child's right to be listed. In cases of serious doubt, give the child the benefit and list him any how as he is better listed twice than not at all.

One copy of the census must be returned to the office of the Superintendent and one to the office of the County Clerk.

Hackworth-Patton.

Arvis Hackworth, of this city, was married at 4 o'clock Thursday, March 29th, to Miss Nettie Patton at the residence of the bride's father, Armsted Patton, near Virden. They have gone to keeping house in this city.

Jim Howard Tuesday began his life-sentence in the penitentiary at Frankfort for the murder of the late Gov. William Goebel.

The courthouse at Murray, Ky., was destroyed by fire Tuesday night. Nearly all the county records were burned.

Estill Springs Sold.

The famous Estill Springs property at Irvine which consists of the fine hotel and seven hundred acres of adjoining land, has been sold by the late J. M. Thomas heirs to Harvey Riddell, of Denver, Colo., L. C. Riddell, of Mt. Sterling and J. Elliott Riddell, of Louisville, for something over \$20,000.00. This property embraces one of the finest summer resorts in the South, and is very paying property. The new owners are sons of Judge Robert Riddell, of Irvine, where the Riddell brothers were born and reared. The property will be under the personal supervision of L. C. Riddell and J. Elliott Riddell. The former has had considerable experience in the hotel business as manager of the National Hotel at Mt. Sterling, the leading hotel of that city. We bespeak for the new owners of the property unbounded success.

Big Land Deal.

A special from Mt. Sterling April 2, says: Maj. Gen. Henry T. Allen, of the Philippines; J. M. Bigstaff and M. O. Cochrell, of Mt. Sterling, and J. M. Pickrell, Winchester, today purchased the controlling interest in the Eastern Kentucky Land Company. This company owns about 7,000 acres of coal and timber lands in Morgan, Harlan, Knox and other counties. The lands are among the richest in the State. The company will at once begin the development of the mineral resources of the property. The erection of large mills and a railroad is contemplated. Gen. Allen predicts that in a few years the mountain section will dominate the Bluegrass section.

March used every minute of her time and went out Saturday in a very rough manner, but April came in Sunday morning as gentle and quiet as a lamb and has continued so far the four days past of this month. It is hoped that the lovely Spring weather will continue for a time as so much wet weather in March has greatly retarded farm work.

Dr. Bertram Smith, the dentist, will be in his Clay City office until April 14th; at Boone Hotel, Stanton, on Monday, April 16th; at Rosslyn and Bowen in May. Dates given later.

YOUR BUSINESS SOLICITED.

SPOUT SPRING.

Farmers are getting very busy in this community sowing oats and preparing for coming spring crops.

W. L. Jackson, of Vaughn's Mill, is visiting his daughter, Mrs. Betsy Rupard, at Pilot View.

W. J. Christopher, Jr., left here last week and went to Hudson, Illinois where he will remain for several months. He has our best wishes in his new location.

Asa Todd has this week added a number of new fruit trees to his already large orchard. This is an example worthy of emulation by every farmer in this county.

Saturday and Sunday will be regular preaching days at the Baptist church. Elder George W. McIntosh will do the preaching. Everybody invited to attend these services.

Mrs. Ella White, who has been in very poor health for the past five or six years, has been much worse the past week, but we are glad to state that she is now improving.

Because a United States court granted a stay of execution looking for a new trial for a negro, a Chattanooga mob lynched him. Tennessee has instituted a new procedure in "lynching a man out of a new trial."

The Origin of "Hello."

"Hello!" said the observing man. "That's a funny word. We use it a hundred times a day, and yet we never think of where it came from. Hello isn't, as many people think, a transposed warm exclamation used in heated discussions by hot headed people. It's French. Way back in the Eleventh century the word was born. The Normans in England coined it. They had great wolf hunts in Britain, just after they had conquered the country, and while they were beating the bush of course they had to yell. And the Normans spoke Anglo-Saxon, probably when we use the telephone we would say 'Thihwool,' a corruption 'of the wolf.' As they spoke French, they cried the French for 'the wolf,' or 'le loup,' pronounced 'luhloo.' The Anglo-Saxons picked the word and it was corrupted into 'hello.' Remember, when you telephone the next time, that you are giving the old Norman wolf hunt cry, 'the wolf.'" —Exchange.

The Local Option Law.

The following bill passed by the Legislature has been approved by the Governor and is now a law:

"It shall be unlawful for any person, or persons, individuals or corporation, public or private carrier to bring into, transfer to other person or persons, corporation, carrier or agent; deliver or distribute in any county, district, precinct, town or city, where the sale of intoxicating liquors has been prohibited, whether by special act of the General Assembly, or by vote of the people under the local option law, any spirituous, malt, or other intoxicating liquor; regardless of the name by which it may be called; and this act shall apply to all packages of such intoxicating liquors whether broken or unbroken.

"Provided, individuals may bring into such districts, upon their person or as personal baggage, and for their private use, such liquors in quantity not to exceed one gallon, and, provided, the provisions of this act shall not apply to licensed physicians or druggists, to whom any public carrier may deliver such goods in unbroken packages in quantities not to exceed five gallons at any one time.

"Each package of such spirituous, vinous, malt, or other intoxicating liquor, regardless of the name by which it may be called, whether broken or unbroken packages, brought into and transferred to other person, corporation, carrier or agent, delivered or distributed in such local option territory shall constitute a separate offense.

"Any person or persons, individuals or corporation, public or private carrier violating the provisions of this act shall be deemed guilty of violating the local option law, and shall be fined not less than fifty nor more than one hundred dollars for each offense.

"This amendment was incorporated; penalty does not apply to carriers who make no charge for delivery.

"And the place of delivery of such liquors shall be held to be place of sale.

"And all laws in conflict with this act are hereby repealed."

Senator Tillman has been selected by the Senate Committee to report the railway rate bill. This necessitates numerous conferences with the President, and as a wielder of pitchforks and lightning, and the man with strenuous teeth, have the same regard for one another that an aggressive tomat has for a succulent mouse, interesting times are to be expected. So if you are awakened by a strange

noise, accompanied by violent tremblings of the United States, don't get scared. It will only be the first conference. C. A. E.

A stream can reach no higher point than its source; consequently no town can grow without the united effort of its citizens. It is no way to make a town grow by running it down at every chance, as kickers are apt to do, instead of speaking a good word for the place in which they live and doing every thing to foster and encourage its enterprise. One bee cannot make much honey, but a hive of busy bees can attain results, and the same principle applies on a large scale to any community.

There is talk of introducing the study of reading, writing and arithmetic into the public schools again and eliminating water color painting, raffia, bead and basket work and other high art occupations.

Corporations are, in the words of the courts, are "artificial persons. Unfortunately, artificial persons cannot be put in jail even if guilty.

To Relieve Pain.
The next time you have toothache, earache, neuralgia, pain in the stomach or abdomen, headache, or sprained ankle or wrist, try fomentations. The way to do this is to take a flannel cloth, wring it out of boiling water, and apply it to the affected part of the body. As soon as the cloth cools off dip it in the hot water again, and keep up the application until the pain is relieved. In cases of headache sometimes the applications instead of being applied direct to the head is applied to the spine, which draws the blood from the head and gives relief.

Human Blood Marks.

DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI

Woman's Relief

that marvelous, curative extract, or natural essence, of herbs, which exerts such a wonderful strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

If You
ARE A Democrat
Or if You are not You will
want to read
Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner one year both for \$1 10.
